MEMORANDUM FOR: DDI

SUBJECT:

**Transmittal of Study, Principal
Aspects of Socialism in Latin
America**

25X1

The attached study, prepared by the International Communism Division of this Staff, describes the Latin American Secretariat of the Socialist International and the principal Socialist parties in Latin America. Particular attention is given in the study to Socialists who promote Communist objectives, and to the closeness of certain Latin American Socialist parties to the Communist line. The study was written for DDP use; it does not represent an official U.S. Government position on Socialism in the countries concerned.
